Offer / Order Ballast soil for dishwasher durability testing

Durability tests of dishwashers need to have a soil ballast load to mimic real life situation. Our ballast soil is from soils as specified in IEC 60456 / EN 60456.

ingredient	content
porridge	36 %
egg yolk	19 %
minced spinach	36 %
margarine	9 %

We also offer many other compositions of ballast soils. Ask us or www.sta-de.com !

<u>Article</u>	<u>Quantity</u>	<u>Description</u>	<u>Price in Euro</u>
SDTB20	Frozen ballast soil cups (70 g) for durability test	
		<= 50 cups	€ 3,00 each
